PRESIDENT WRITES PORTION

Through an Agreement Between Both Governments to Keep Contents of Document Secret the Japanese Foreign Office Refuses to Even Make Any Comment, but Is Giving the Note Careful Consideration.

Washington, May 22.—How the United States admires Japan's progress was told in the American note to Japan, a large part of which was written by President Wilson, it was learned here.

The communication, it is said, pointed to California—and only a part of California, too—as having given evidence of a discriminatory attitude. The note states that the United States as a whole respects the achievements of the Japanese people and is sincerely anxious to show that it regards Japan on a basis of equality with all other powers and nations.

The note was about 1,000 words long and dealt chiefly with the spirit of the American people toward Japan, making little reference, it is understood, to the technicalities of the new law or the treaty, but discussing Japan's contention that the California agitation was in reality an act of unfriendliness and discrimination toward the Japanese.

ARE LOYAL TO NATIVE LAND

Japs Not Anxious to Become American Citizens.

San Francisco, May 22.—Of fifty Japanese born in Honolulu and eligible to American citizenship but fifteen have availed themselves of the opportunity, according to Gilbert D. Metzger, a Honolulu contractor, who arrived here.

"Japanese are loyal to their own government and do not care to become American citizens when they may," he said.

JAPANESE STUDYING NOTE

Officials Decline to Comment on Its Contents.

Tokio, May 22.—The Japanese foreign office has received and is studying the reply of the United States government to its original protest in regard to the California alien land ownership legislation. It declares that by agreement with Washington the document will not be made public. The officials make no comment as to whether it is satisfactory.

COAL STRIKE PROBE CERTAIN

Senate Committee Decides to Report Resolution.

Washington, May 22.—Federal investigation of the strike of coal miners in the Paint Creek region of West Virginia was assured when the senate education and labor committee agreed to report with amendments Senator Kern's resolution authorizing an inquiry.

The resolution redrafted by a subcommittee, with the understanding that it be laid before the senate with the endorsement of the other members, would allow a "thorough and complete" inquiry into conditions in the Paint Creek region preceding, during and after the strike.

The committee would be authorized to conduct hearings as a whole or by subcommittees either in Washington or West Virginia and to subpoena any witness it desires.

PLUM FOR BURKE'S BROTHER

Senate Confirms Nomination as Portland Customs Collector.

Washington, May 22.—The senate confirmed the nomination of Thomas C. Burke for collector of customs at Portland and William C. Logan for collector of customs at Astoria. Burke is a brother of former Governor Burke of North Dakota, now United States treasurer.

Unless the Taft reorganization order is rescinded Burke will serve at a salary of \$6,000 until July 1, when his salary will be reduced to \$5,500.

WOMEN CAUSE RIOT.

Philadelphia, May 22.—An attempt by woman suffragists to conduct an open air mass meeting in the mill district of Kensington resulted in a riot which was not quelled until police reserves had been called to the scene.

Suspend Wheat Rate Raise.

Washington, May 22.—An increase averaging about 30 cents a hundred pounds, approximately 35 per cent, in the freight rates on wheat from various points of origin in Middle Western states to destinations in the Southwest was suspended by the interstate commerce commission until Sept. 19. An investigation of the advance will be made.

ASYLUM INMATE
KILLS FIVE MENBeats Companions to Death
With Table Top.

NO EVIDENCE OF STRUGGLE

Victims Are Slain in Their Beds as They Lay Quietly Sleeping—Institution Crowded and It Became Necessary to Place Six Men in One Room. Murderer Accomplishes Crime Without Arousing Guards.

Blackfoot, Ida., May 22.—Peter Bradovitch, an insane Austrian, confined in the Southern Idaho asylum for the insane here, killed his five roommates by beating them on the head with a table as they lay asleep. The dead are:

George Race, Pocahontas; George Pede, Boise; Hyrum Patterson, Idaho Falls; Elias Bagley, Moreland; George Shepherd, Pocatello.

There was no evidence of a struggle between the maniac and his victims, except on the body of Peterson. Two bruises on his arm showed that he had tried to ward off the blows which Bradovitch rained on his head.

So quietly did Bradovitch accomplish the killing that guards sleeping across the hall were not awakened. The heads of all five men were completely crushed.

Bradovitch was committed to the asylum two years ago from the state penitentiary, where he was serving a life sentence for murder.

An investigation was held and the asylum officials were exonerated from blame. According to the testimony the institution was overcrowded, making it necessary to keep several patients in one room.

Testimony also was given tending to show that in the two years which Bradovitch had been confined he had never shown any signs of violence.

Never Before Made Trouble.

Peter Bradovitch had been brought to the Blackfoot asylum three years ago. He had been a trusty for the last year, working both inside and outside of asylum buildings and never creating trouble.

New inmates were brought to the asylum and it became necessary to transfer Bradovitch from the dormitory, where he had been sleeping with three other men, to a dormitory where there were five men.

He expressed his pleasure at the change, saying that he could not sleep in his old ward, but knew he could in the new quarters, for the inmates there were more quiet at midnight.

Mr. and Mrs. Clyde Grimes, guards, entered the dormitory where Bradovitch slept and found the six inmates apparently asleep. Forty minutes later Grimes started for the engine room to inspect the heating plant and heard a noise in the dormitory.

Returning he and wife unlocked the door and found Bradovitch standing with the top of a table three feet square in his hands, elevated as though in the act of striking George Shepherd, one of the occupants of the room. All the inmates were dead.

He commanded Bradovitch to lower the table. Quickly jumping out of the room he ran to the quarters of the day guard, aroused him and together the men returned and told Bradovitch to come into the hall. As cool as though nothing had happened Bradovitch walked into the corridor and accompanied the guards to the strong room.

FIVE SEERS ARE INDICTED

Grand Jury in Chicago Also Investigates Alleged "Shakedown."

Chicago, May 22.—Indictments against five clairvoyants, charged with obtaining, chiefly from women, sums ranging from small amounts up to \$1,000 for "revealing the future," were returned by the county grand jury.

"Professor" Mason, who, according to charges, is one of a gang of fortune tellers that harvested fortunes in Chicago under alleged collusion with certain police officials, was the only new name mentioned in the indictments.

Immediately upon returning the bills the jurors retired to consider charges that the police through "shakedown" men collected money from the "crime trust."

NEW STAMP BOOKS PLANNED

Postoffice Department Approves Designs for Two.

Washington, May 22.—Designs for two new stamp books, one to contain ninety-six 1-cent stamps and the other twenty-four 1-cent and twenty-four 2-cent stamps, were approved by the postoffice department.

All stamp books are sold at 1 cent each above the face value of the stamps they contain. This small margin yielded a profit last year to the government of \$180,000.

DANIELS ENJOYS AIR TRIP

Secretary of the Navy Goes Up in Flying Boat.

Annapolis, Md., May 22.—Secretary of the Navy Josephus Daniels traveled eight miles through the air in a flying boat in eight minutes.

"It was delightful; I enjoyed the sensation thoroughly," was the secretary's reply just after he alighted.

The secretary went up with Lieutenant Towers, senior of navy aviation corps, whose camp is across the river from the naval academy. The flight was made in the flying boat "C-1."

When he had landed the secretary talked of his sensations and mentioned that by flying, after having taken a dive in a submarine boat at Norfolk recently, he had gone down and up with the navy.

SWEEPING CHANGES
IN EXPRESS RATESWisconsin Commission Orders
One-fifth Reduction.

Madison, Wis., May 22.—Changes of express rates of sweeping importance were ordered by the Wisconsin railroad commission in its decision in the case brought by the Milwaukee Merchants and Manufacturers' association. By an order of the commission every express company operating in Wisconsin is included in the purview of the ruling. The average reductions ordered are about 20 per cent.

As the order sets no date for its becoming effective the new rates will go into effect in twenty days as provided by law.

The 100-pound basing rates between points are considerably altered and the graduated scales on which the charges for the various weights are computed are completely changed.

The decision is the result of several years of investigation by the commission of express rates, not only in Wisconsin, but throughout the country. Particular attention was given to the schedule of rates proposed by the interstate commerce commission and the rates ordered by the Wisconsin commission are designed to fit in with the interstate rates.

PRESIDENT TALKS CURRENCY

Asks Senate and House Leaders Progress of Bill.

Washington, May 22.—President Wilson had three conferences on currency reform. He learned from Senator Kern, majority leader, that attention had been so sharply focused on the tariff that there was no agreement in sight as yet to the advisability of banking reform.

The president talked with Chairman Owen of the senate banking and currency committee and later saw Representative Glass, chairman of the house banking committee.

MORE MINERS STRIKE.

Charleston, W. Va., May 22.—The threatened strike of miners employed in the New River coal field of West Virginia occurred. One thousand miners, many with their families, have quit their homes and are living in tents furnished by the United Mine Workers of America.

Bixby Pleads Not Guilty.

Los Angeles, May 22.—George H. Bixby, the Long Beach banker, pleaded not guilty to two indictments charging him with having contributed to the delinquency of minors. The pleas were entered after Oscar Lawler, attorney for Bixby, had failed to have the indictments quashed.

MAY CREATE AN
AVIATION CORPSRepresentative May Possibly
Will Draw Up the Bill.

SIGNAL MEN WILL OBJECT.

If Idea Is Carried Out the Aviators Will Be Advanced in Rank—Foreign War Departments Seem to Be Ahead of Ours in Science of Aerial Navigation—More Men Engaged.

By ARTHUR W. DUNN.

Washington, May 22.—[Special.]—Aviation has reached a point where men interested in military affairs are seriously taking up the subject with a view of forming a separate corps in the army to look after aerial navigation. At present the experiments in aviation are under the direction of the signal corps, as that branch of the service has charge of telegraphs, telephones, wireless, heliograph and other means of communication.

Congressman James Hay of Virginia, who will be chairman of the military committee, may hold hearings and present a bill creating an aviation corps in the army. This will be opposed by the signal corps, but it will meet with earnest support from all the men who have given attention to navigation of the air.

Naturally these are mostly young men. They are taking great risks and receiving comparatively small pay. If a corps is created most of them who are now captains and lieutenants will get rank of colonels. Lieutenant colonels and majors. This will be a great incentive to officers to give their attention to aviation and risk their lives in perfecting this system of offense and defense.

Foreigners In Advance.

It appears that foreign war departments are far in advance of this country in aerial navigation. They are giving more attention to aviation, have more officers and men engaged and have attained much better results than our army officers. Congress has done considerable and has doubled the pay of those engaged in the hazardous service, but that has not been sufficient to attract the officers and men necessary to make aviation a success in war.

Alaska's Wants.

We almost forget that we have any more territories since the admission of New Mexico and Arizona, but the legislature of Alaska will not let congress forget that there is a big area of country in the far northwest that needs government attention. Many memorials are sent to congress and printed in the Congressional Record which tell of the wants of the big territory.

The members of the legislature in one memorial protest against the extensive forest and game reservations which, they say, retard development of the country. Harbor improvements are asked and needs of better transportation facilities are pointed out. Perhaps congress will get time to give attention to Alaska in the next session.

Penrose as a Debater.

The silence of Pennsylvania in the senate during the years that the state was represented by Don Cameron and Quay and by Penrose as Cameron's successor has caused much comment. But that seems now to be changed, particularly in the case of Penrose. The big senator has a command of language, and he seems inclined to use it during the tariff discussion. As chairman of the finance committee he did not take any time in the senate on the bills in the last congress, but as ranking minority man he shows a disposition to give the senate the benefit of his views.

Penrose is something of a humorist, too, although Champ Clark says up to a few months ago he regarded him as a "graven image." There are people who think that Penrose may re-establish himself in favor in Pennsylvania by making a strong fight for protection at this session.

Senate Long Talks.

There is every indication that there will be "long talks" in the senate before the tariff bill passes. It also appears that the Republican senators are going to show more real fight than was developed in the house.

Back to the Past.

Many speech makers on the tariff do not think they have made good unless they go back into the dim past and dig up the ideas of great men of that time. For instance, there has been a constant windy war of words as to whether Jefferson was for or against protection what Andrew Jackson said or did and the ideas of many others who were prominent in their day.

In view of the fact that we are amending the constitution because we have outgrown some of its limitations or on account of changed conditions, it might seem wise to treat a purely business proposition on a basis of present day conditions. But the politicians are determined to make the tariff a political and not a business affair.

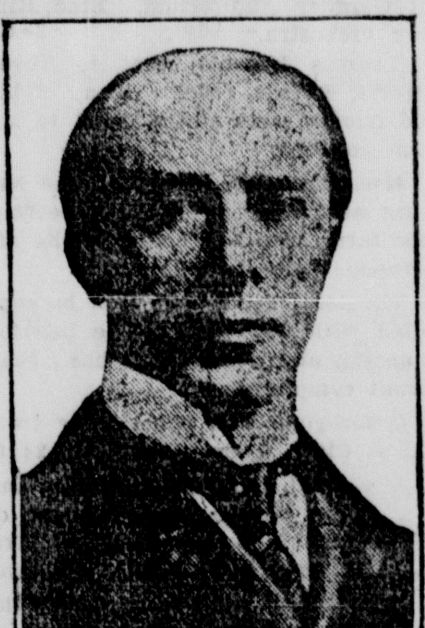

Will History Repeat.

John F. Shafroth of Colorado, when it was shown he had not been legally elected, resigned his seat and moved the election of his successor. Shafroth became governor and returned to Washington as senator. H. Olin Young has made the first step. Michigan has an opportunity to have history repeat.

STAYS AWAY FROM MEETING

British Home Secretary Scents Suffragette Plot.

Cardiff, Wales, May 22.—The British cabinet ministers are exposed to such risks of being mauled by militants at public meetings that hereafter they are likely to refuse to attend unless those in charge of the meetings are prepared to guarantee their personal safety.

Because such assurances could not be given him the home secretary, Right Honorable Reginald McKenna, did not appear at the Welsh disestablishment and free church conference, although he was announced as one of the speakers.

It is understood the authorities learned of a suffragette plot to attack the home secretary at the conference by a method which would not only jeopardize Mr. McKenna's life, but the lives of the delegates as well.

200 Lives.

Marseilles, May 22.—A message received here says that the liner Senegal of the Compagnie des Messageries Maritimes struck a mine as she was leaving Smyrna and was blown up. It is believed that there were 200 persons aboard. No confirmation of this dispatch has yet reached the company's office here.

London, May 22.—A Smyrna dispatch says that tugs have gone to the assistance of the Senegal in the hope of saving life.

The Senegal left Marseilles last Thursday with about sixty passengers aboard and a crew of sixty.

DEATH ENDS HIS SUFFERING

Poisoned Banker Displays Fine Courage to the End.

Macon, Ga., May 22.—Displaying in his few conscious moments the courage which has characterized his week's fight with death from poisoning B. Sanders Walker lapsed into unconsciousness and passed quietly away.

Although he has battled for life since May 14, when he took a bi-chloride of mercury tablet by mistake, the banker for the first time lapsed into unconsciousness.

A characteristic utterance made just before he went into a state of partial coma illustrates the remarkable composure with which he has faced death.

"If I am dying," he said, "then the sensation is not as it is generally pictured. If this be death then none needs fear its terrors."

TO PRISON FOR TEN YEARS

Physician Convicted of Causing Woman's Death.

Grand Forks, N. D., May 22.—Dr. J. J. Reilly of Milton was rearrested and taken to the state penitentiary to serve ten years for manslaughter in the first degree.

His recent application to the supreme court for a rehearing was decided against him and he was taken into custody at Larimore on a train while en route to Grand Forks.

The death of Mrs. William Drury was responsible for the manslaughter charge.

Atlantic, Ia., May 22.—Leslie M. Shaw, former secretary of the treasury of the United States, whose bid of \$294,000 for the Atlantic, Northern and Southern railroad was accepted by the United States district court last Friday, announced that he had instructed his attorney by telegraph to bid to bid on the property and began efforts to stop payment on the certified check for \$14,700 put up as a forfeit with the bid.

Shaw's attorney, J. J. Hess, declares the telegram was not received until after the sale had been completed.

Dye Maker Hired Him.

Boston, May 22.—Fred E. Atteaux, dye manufacturer, was indicated as the "man higher up" in the dynamite conspiracy trial of President William W. Wood, Dennis J. Collins and Atteaux, by John J. Breen, confessed "planter" of dynamite during the textile strike of 1912.

Breen said the dye manufacturer had engaged him to plant the dynamite and had arranged with Ernest R. Pittman, the Andover builder, who committed suicide when the grand jury began investigating the alleged conspiracy, to furnish the explosive.

Mr. Wood's name was mentioned only once and that was when Breen said he asked Atteaux if the mill man knew anything about the matter and Atteaux replied that he did not.

CLEARS O'HARA OF CHARGES

Report to Illinois Senate by Investigating Committee.

Springfield, Ill., May 22.—Lieutenant Governor O'Hara was exonerated from blame by the committee which investigated charges of immorality against him, in a report it made to the Illinois senate. Miss Maude Robinson, whose affidavit concerning a meeting with O'Hara in Chicago, led to the charges, and "Sam" Davis of Springfield, said to have induced her to make the affidavit, were charged in the same report with attempting to obstruct the work of the senate vice commission.

Senate Committee Decides to Report Resolution.

Washington, May 22.—Federal investigation of the strike of coal miners in the Paint Creek region of West Virginia was assured when the senate education and labor committee agreed to report with amendments Senator Kern's resolution authorizing an inquiry.

The resolution redrafted by a subcommittee, with the understanding that it be laid before the senate with the endorsement of the other members, would allow a "thorough and complete" inquiry into conditions in the Paint Creek region preceding, during and after the strike.

The committee would be authorized to conduct hearings as a whole or by subcommittees either in Washington or West Virginia and to subpoena any witness it desires.

PLUM FOR BURKE'S BROTHER

Senate Confirms Nomination as Portland Customs Collector.

Washington, May 22.—The senate confirmed the nomination of Thomas C. Burke for collector of customs at Portland and William C. Logan for collector of customs at Astoria. Burke is a brother of former Governor Burke of North Dakota, now United States treasurer.

Unless the Taft reorganization order is rescinded Burke will serve at a salary of \$6,000 until July 1, when his salary will be reduced to \$5,500.

WOMEN CAUSE RIOT.

Philadelphia, May 22.—An attempt by woman suffragists to conduct an open air mass meeting in the mill district of Kensington resulted in a riot which was not quelled until police reserves had been called to the scene.

Suspend Wheat Rate Raise.

Washington, May 22.—An increase averaging about 30 cents a hundred pounds, approximately 35 per cent, in the freight rates on wheat from various points of origin in Middle Western states to destinations in the Southwest was suspended by the interstate commerce commission until Sept. 19. An investigation of the advance will be made.

ASYLUM INMATE
KILLS FIVE MENBeats Companions to Death
With Table Top.

NO EVIDENCE OF STRUGGLE

Victims Are Slain in Their Beds as They Lay Quietly Sleeping—Institution Crowded and It Became Necessary to Place Six Men in One Room. Murderer Accomplishes Crime Without Arousing Guards.

Blackfoot, Ida., May 22.—Peter Bradovitch, an insane Austrian, confined in the Southern Idaho asylum for the insane here, killed his five roommates by beating them on the head with a table as they lay asleep. The dead are:

George Race, Pocahontas; George Pede, Boise; Hyrum Patterson, Idaho Falls; Elias Bagley, Moreland; George Shepherd, Pocahontas.

There was no evidence of a struggle between the maniac and his victims, except on the body of Peterson. Two bruises on his arm showed that he had tried to ward off the blows which Bradovitch rained on his head. So quietly did Bradovitch accomplish the killing that guards sleeping across the hall were not awakened. The heads of all five men were completely crushed.

Bradovitch was committed to the asylum two years ago from the state penitentiary, where he was serving a life sentence for murder.

An investigation was held and the asylum officials were exonerated from blame. According to the testimony the institution was overcrowded, making it necessary to keep several patients in one room.

Testimony also was given tending to show that in the two years which Bradovitch had been confined he had never shown any signs of violence.

Never Before Made Trouble.

Peter Bradovitch had been brought to the Blackfoot asylum three years ago. He had been a trusty for the last year, working both inside and outside of asylum buildings and never creating trouble.

New inmates were brought to the asylum and it became necessary to transfer Bradovitch from the dormitory, where he had been sleeping with three other men, to a dormitory where there were five men.

He expressed his pleasure at the change, saying that he could not sleep in his old ward, but knew he could in the new quarters, for the inmates there were more quiet at night. Mr. and Mrs. Clyde Grimes, guards, entered the dormitory where Bradovitch slept and found the six inmates apparently asleep. Forty minutes later Grimes started for the engine room to inspect the heating plant and heard a noise in the dormitory.

Returning he and wife unlocked the door and found Bradovitch standing with the top of a table three feet square in his hands, elevated as he stood in the act of striking George Shepherd, one of the occupants of the room. All the inmates were dead.

He commanded Bradovitch to lower the table. Quickly jumping out of the room he ran to the quarters of the day guard, aroused him and together the men returned and told Bradovitch to come into the hall. As cool as though nothing had happened Bradovitch walked into the corridor and accompanied the guards to the strong room.

FIVE SEERS ARE INDICTED

Grand Jury in Chicago Also Investigates Alleged "Shakedown."

Chicago, May 22.—Indictments against five clairvoyants, charged with obtaining, chiefly from women, sums ranging from small amounts up to \$1,000 for "revealing the future," were returned by the county grand jury.

"Professor" Mason, who, according to charges, is one of a gang of fortune tellers that harvested fortunes in Chicago under alleged collusion with certain police officials, was the only new name mentioned in the indictments.

Immediately upon returning the bills the jurors retired to consider charges that the police through "shakedown" men collected money from the "crime trust."

NEW STAMP BOOKS PLANNED

Postoffice Department Approves Designs for Two.

Washington, May 22.—Designs for two new stamp books, one to contain twenty-six 1-cent stamps and the other twenty-four 1-cent and twenty-four 2-cent stamps, were approved by the postoffice department.

All stamp books are sold at 1 cent each above the face value of the stamps they contain. This small margin yielded a profit last year to the government of \$180,000.

DANIELS ENJOYS AIR TRIP

Secretary of the Navy Goes Up in Flying Boat.

Annapolis, Md., May 22.—Secretary of the Navy Josephus Daniels traveled eight miles through the air in a flying boat in eight minutes.

"It was delightful; I enjoyed the sensation thoroughly," was the secretary's reply just after he alighted.

The secretary went up with Lieutenant Towers, senior of navy aviation corps, whose camp is across the river from the naval academy. The flight was made in the flying boat "C-1."

When he had landed the secretary talked of his sensations and mentioned that by flying, after having taken a dive in a submarine boat at Norfolk recently, he had gone down and up with the navy.

SWEEPING CHANGES
IN EXPRESS RATESWisconsin Commission Orders
One-fifth Reduction.

Madison, Wis., May 22.—Changes of express rates of sweeping importance were ordered by the Wisconsin railroad commission in its decision in the case brought by the Milwaukee Merchants and Manufacturers' association. By an order of the commission every express company operating in Wisconsin is included in the purview of the ruling. The average reductions ordered are about 20 per cent.

As the order sets no date for its becoming effective the new rates will go into effect in twenty days as provided by law.

The 100-pound basing rates between points are considerably altered and the graduated scales on which the charges for the various weights are computed are completely changed.

The decision is the result of several years of investigation by the commission of express rates, not only in Wisconsin, but throughout the country. Particular attention was given to the schedule of rates proposed by the interstate commerce commission and the rates ordered by the Wisconsin commission are designed to fit in with the interstate rates.

PRESIDENT TALKS CURRENCY

Asks Senate and House Leaders Progress of Bill.

Washington, May 22.—President Wilson had three conferences on currency reform. He learned from Senator Kern, majority leader, that attention had been so sharply focused on the tariff that there was no agreement in sight as yet to the advisability of banking reform.

The president talked with Chairman Owen of the senate banking and currency committee and later saw Representative Glass, chairman of the house banking committee.

MORE MINERS STRIKE.

Charleston, W. Va., May 22.—The threatened strike of miners employed in the New River coal field of West Virginia occurred. One thousand miners, many with their families, have quit their homes and are living in tents furnished by the United Mine Workers of America.

Bixby Pleads Not Guilty.

Los Angeles, May 22.—George H. Bixby, the Long Beach banker, pleaded not guilty to two indictments charging him with having contributed to the delinquency of minors. The pleas were entered after Oscar Lawler, attorney for Bixby, had failed to have the indictments quashed.

MAY CREATE AN
AVIATION CORPSRepresentative May Possibly
Will Draw Up the Bill.

SIGNAL MEN WILL OBJECT.

If Idea Is Carried Out the Aviators Will Be Advanced in Rank—Foreign War Departments Seem to Be Ahead of Ours in Science of Aerial Navigation—More Men Engaged.

By ARTHUR W. DUNN.

Washington, May 22.—[Special.]—Aviation has reached a point where men interested in military affairs are seriously taking up the subject with a view of forming a separate corps in the army to look after aerial navigation. At present the experiments in aviation are under the direction of the signal corps, as that branch of the service has charge of telegraphs, telephones, wireless, heliograph and other means of communication.

Congressman James Hay of Virginia, who will be chairman of the military committee, may hold hearings and present a bill creating an aviation corps in the army. This will be opposed by the signal corps, but it will meet with earnest support from all the men who have given attention to navigation of the air.

Naturally these are mostly young men. They are taking great risks and receiving comparatively small pay. If a corps is created most of them who are now captains and lieutenants will get rank of colonels. Lieutenant colonels and majors. This will be a greater incentive to officers to give their attention to aviation and risk their lives in perfecting this system of offense and defense.

Foreigners In Advance.

It appears that foreign war departments are far in advance of this country in aerial navigation. They are giving more attention to aviation, have more officers and men engaged and have attained much better results than our army officers. Congress has done considerable and has doubled the pay of those engaged in the hazardous service, but that has not been sufficient to attract the officers and men necessary to make aviation a success in war.

Alaska's Wants.

We almost forget that we have many more territories since the admission of New Mexico and Arizona, but the legislature of Alaska will not let congress forget that there is a big area of country in the far northwest that needs government attention. Many memorials are sent to congress and printed in the Congressional Record which tell of the wants of the big territory.

The members of the legislature in one memorial protest against the extensive forest and game reservations which, they say, retard development of the country. Harbor improvements are asked and needs of better transportation facilities are pointed out. Perhaps congress will get time to give attention to Alaska in the next session.

Penrose as a Debater.

The silence of Pennsylvania in the senate during the years that the state was represented by Don Cameron and Quay and by Penrose as Cameron's successor has caused much comment. But that seems now to be changed, particularly in the case of Penrose. The big senator has a command of language, and he seems inclined to use it during the tariff discussion. As chairman of the finance committee he did not take any time in the senate on the bills in the last congress, but as ranking minority man he shows a disposition to give the senate the benefit of his views.

Penrose is something of a humorist, too, although Champ Clark says up to a few months ago he regarded him as a "graven image." There are people who think that Penrose may re-establish himself in favor in Pennsylvania by making a strong fight for protection at this session.

Senate Long Talks.

There is every indication that there will be "long talks" in the senate before the tariff bill passes. It also appears that the Republican senators are going to show more real fight than was developed in the house.

Back to the Past.

Many speech makers on the tariff do not think they have made good unless they go back into the dim past and dig up the ideas of great men of that time. For instance, there has been a constant windy war of words as to whether Jefferson was for or against protection what Andrew Jackson said or did and the ideas of many others who were prominent in their day.

In view of the fact that we are amending the constitution because we have outgrown some of its limitations or on account of changed conditions, it might seem wise to treat a purely business proposition on a basis of present day conditions. But the politicians are determined to make the tariff a political and not a business affair.

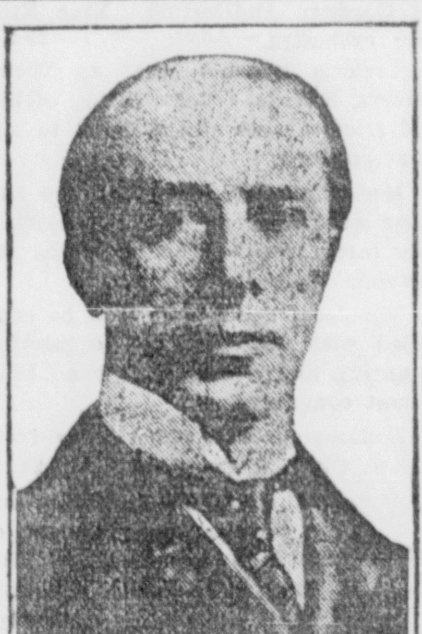

Will History Repeat.

John F. Shafroth of Colorado, when it was shown he had not been legally elected, resigned his seat and moved the election of his successor. Shafroth became governor and returned to Washington as senator. H. Olin Young has made the first step. Michigan has an opportunity to have history repeat.

STAYS AWAY FROM MEETING

British Home Secretary Scents Suffragette Plot.

Cardiff, Wales, May 22.—The British cabinet ministers are exposed to such risks of being mauled by militants at public meetings that hereafter they are likely to refuse to attend unless those in charge of the meetings are prepared to guarantee their personal safety.

Because such assurances could not be given him the home secretary, Right Honorable Reginald McKenna, did not appear at the Welsh disestablishment and free church conference, although he was announced as one of the speakers.

It is understood the authorities learned of a suffragette plot to attack the home secretary at the conference by a method which would not only jeopardize Mr. McKenna's life, but the lives of the delegates as well.

200 Lives.

Marseilles, May 22.—A message received here says that the liner Senegal of the Compagnie des Messageries Maritimes struck a mine as she was leaving Smyrna and was blown up. It is believed that there were 200 persons aboard. No confirmation of this dispatch has yet reached the company's office here.

London, May 22.—A Smyrna dispatch says that tugs have gone to the assistance of the Senegal in the hope of saving life.

The Senegal left Marseilles last Thursday with about sixty passengers aboard and a crew of sixty.

DEATH ENDS HIS SUFFERING

Poisoned Banker Displays Fine Courage to the End.

Macon, Ga., May 22.—Displaying in his few conscious moments the courage which has characterized his week's fight with death from poisoning, B. Sanders Walker lapsed into unconsciousness and passed quietly away.

Although he has battled for life since May 14, when he took a bi-chloride of mercury tablet by mistake, the banker for the first time lapsed into unconsciousness.

A characteristic utterance made just before he went into a state of partial coma illustrates the remarkable composure with which he has faced death.

"If I am dying," he said, "then the sensation is not as it is generally pictured. If this death then none needs fear its terrors."

TO PRISON FOR TEN YEARS

Physician Convicted of Causing Woman's Death.

Grand Forks, N. D., May 22.—Dr. J. J. Reilly of Milton was rearrested and taken to the state penitentiary to serve ten years for manslaughter in the first degree.

His recent application to the supreme court for a rehearing was decided against him and he was taken into custody at Larimore on a train while en route to Grand Forks.

The death of Mrs. William Drury was responsible for the manslaughter charge.

Shaw's attorney, J. J. Hess, declares the telegram was not received until after the sale had been completed.

ATTEAUX "MAN HIGHER UP"

Confessed Dynamite "Planter" Says
Dye Maker Hired Him.

Boston, May 22.—Fred E. Atteaux, dye manufacturer, was indicated as the "man higher up" in the dynamite conspiracy trial of President William W. Wood, Dennis J. Collins and Atteaux, by John J. Breen, confessed "planter" of dynamite during the textile strike of 1912.

Breen said the dye manufacturer had engaged him to plant the dynamite and had arranged with Ernest R. Pitman, the Andover builder, who committed suicide when the grand jury began investigating the alleged conspiracy, to furnish the explosive.

Mr. Wood's name was mentioned only once and that was when Breen said he asked Atteaux if the mill man knew anything about the matter and Atteaux replied that he did not.

CLEARS O'HARA OF CHARGES

Report to Illinois Senate by Investigating Committee.

Springfield, Ill., May 22.—Lieutenant Governor O'Hara was exonerated from blame by the committee which investigated charges of immorality against him, in a report it made to the Illinois senate. Miss Maude Robinson, whose affidavit concerning a meeting with O'Hara in Chicago, led to the charges, and "Sam" Davis of Springfield, said to have induced her to make the affidavit, were charged in the same report with attempting to obstruct the work of the senate vice commission.

CALLS COMPETITION FARCE

Secretary of the Navy Criticizes System of Dividing Contracts Among All Bidders at the Lowest Figure. Believes That if a Subsidy Is to Exist It Should Be Created Honestly by Statute.

Washington, May 22.—Responsibility for price agreements among manufacturers furnishing armor plate for American warships was placed directly upon the navy department itself by Secretary Daniels.

In a statement the secretary declared that the policy of the department in dividing plate contracts among all bidders at the lowest figure offered "makes all pretense of competitive bidding to get the lowest market price a farce that cannot possibly appeal to any one acquainted with facts."

BRAINERD MODEL LAUNDRY

212-214 S. Broadway

Work on our building has just been started. The
building will cost about \$8,000.00 and will be of fire-
proof construction.

The contract for our laundry machinery was award-
ed the Troy Laundry Machinery Co., of Chicago,
and for our power plant to R. B. Whitacre Co., of
St. Paul. The entire outfit costs us \$14,000.00. We
have our own deep well with pure water.

We will aim to do all sorts of work. We will handle
all quantities, and we are prepared to add to our
equipment as the requirements demand.

We will do it in
"The Model Way"
at the
MODEL LAUNDRY

The sides of the car open by means of
folding doors, which cover the roof and
rear half of the sides and are ad-
justed to form the sanctuary walls.

In the center of the platform exten-
sions is set the handsome altar and vest-
ment cabinet, with its ornamental
brass accessories. Along the outer
edge of the platform are fitted de-
mountable brass standards, with heavy
silk cord guards. The floor of the en-
tire platform is covered with a deep
green Brussels carpet, and a green
draped curtain hangs from the plat-
form extension to the ground. En-
trance and exit are by an oak stair-
way flanked by brushed brass stand-
ards and brass chain guards, which
lead from the ground to the altar.

In the ecclesiastical equipment are
included a folding confessional, a fold-
ing organ, and a folding rack fitted
with large tubular bells for outside
use, and a small chime for use at the
altar.

Home on Wheels.
When the altar is not in use it is
pushed to the extreme rear, and the
space in front is given over to living
quarters for the priests. A large oak
cabinet fitted with several compart-
ments occupies the forward interior
space and contains lockers for the per-
sonal effects of two persons, lockers for
folding coats and bed clothes, drawers
for books, stationery, typewriter, cook-
ing utensils, tableware and a light sup-
ply of provisions.

Another oak cabinet built in one side
of the interior of the car contains com-
partments for towels, lavatory and
drinking water supplies, a medicine
cabinet fitted with a mirror and a drop
door arrangement to serve as a com-
bination washstand and typewriting
desk. On the opposite side of the in-
terior is arranged a drop leaf, with ad-
justable metal brackets to serve as a
writing desk and general table.

As many as three cots can be erected
in both style, suspended by means of
brass chains. Two extra army folding
cots are included in the outfit, to be
used when desired. The car is twenty-
one feet long, six feet nine inches wide
and twelve feet high.

MEMORIAL TO JUDGE HOLLAND

To be Presented at Coming Term of District Court in Brainerd Next Week

BY COUNTY BAR ASSOCIATION

Date of Memorial Presentation and Addresses to be Announced by Judge McClenahan

A memorial to the late Judge G. W. Holland will be presented by the Crow Wing county bar association at the coming session of the district court in Brainerd, the date of the same and the hour of holding these memorial services to be set by the presiding judge, Hon. W. S. McClenahan.

The late Judge G. W. Holland, for several terms, was a judge of the district court. All those taking part in the services, and in fact, nearly all members of the county bar association, were old friends of the judge.

In addition to the reading of the memorial, which will be made a record of the court, there will be addresses by brother lawyers. The memorial committee includes Judge W. A. Fleming, D. A. Haggard and Judge W. H. Mantor.

Bids For Cement Paving

Sealed bids will be received by the undersigned at his office, in the City of Brainerd, Minnesota, until 8 o'clock P. M., June 2nd, 1913, for the furnishing of all material and labor and construction of cement pavement on Sixth Street North, from the north line of the Northern Pacific Railway Company's track, to the North line of Main Street, according to plans and specifications on file in the office of the undersigned.

Each bid must be marked "Sealed Bid For Paving on North Sixth Street."

The Council reserves the right to reject any and all bids.

DEATH OF FORMER RESIDENT

Mrs. Nellie G. Roll, 25 Years a Resident of Brainerd, Died of Tuberculosis Last Night

Mrs. Nellie G. Roll, aged 42, wife of Hagbarth G. Roll, of Brinsmead, N. D., died of tuberculosis last night at the home of her daughter, Mrs. Albin Johnson, 506 South Ninth street, following an illness of three years.

Mrs. Roll was born in Ottertail county and was married in Brainerd on June 29, 1891, making her home here for 25 years. From Brainerd the family went to Brinsmead, N. D., where the deceased had made her home for three years. In the hope of benefiting her health she returned to Minnesota and lived with her daughter.

She leaves a husband and nine children to mourn her demise. The children are Mrs. Albin Johnson and Ione Roll of Brainerd; Miss Mabel Roll, Frederick Roll, Harold Roll, Ruth Roll, Alta Roll, Herbert Roll and Louis Roll of Brinsmead, N. D. She had two brothers and four sisters.

She was a devoted member of the Swedish Baptist church and the funeral will be held from there on Sunday afternoon at two o'clock, the Rev. Karl A. Lundin officiating. Interment will be in Long Lake cemetery.

The sympathy of the community is extended to the bereaved family in its sad bereavement.

MUSIC AND DRAMA

At the Empress

"The Crazy Prospector," one of the most thrilling dramatic subjects of the season at the Empress. The plot follows:

John Harlan, a crazy prospector living with his daughter in Nevada, accidentally discovers gold. He is so enthused over it that he immediately goes to the town saloon where he informs everybody. Harriet, the daughter discovering her father had not returned, goes to the saloon where she is informed by her half-witted father that he has told the men of the location and that they have already departed for the hidden treasure. Broncho Billy enters the saloon and Harriet implores him to help her keep the men from staking out the property. Driving his stage coach at dare-devil speed over rocks, through marshes and small streams, he finally reaches a high spot in the road where the deep canyon yawns below. Harriet unhitches one of the horses and rides to the claim agent's office, where her name is filed on the state's books for the property. With the certificate of the state in her hands, she dashes madly to the gold pit, where she stakes out her claim. In the meantime, the men arrive on horseback and are prevented from passing the coach, which takes up the whole road. Broncho Billy saves the claim for the crazy prospector and wins the hands of his daughter as a reward.

At the Grand

The feature picture at the Grand tonight is "The Grey Sentinel." A synopsis of the plot follows: Tom Carson, a southerner, with his daughter, Grace, is the keeper of the Grey Sentinel lighthouse. John Adams, the sweetheart of Grace, returns from West Point and joins the southern cause; he, however, spying for the Union army. A fierce battle takes place between the Confederates and Union forces in which the former are victorious.

Hal Peters, a southern officer and an admirer of Grace, is surprised to find among his captives, John Adams. Believing his excuse of spying on the Unionists, Hal releases Adams, who learns that a boat with supplies for the southern army is soon to land at the Grey Sentinel lighthouse at midnight.

The Union army being advised of the move sinks the ship. Adams is killed by Carson and Hal claims Grace at the end of the war.

This is a great Civil War picture and one of the greatest shown in Brainerd.

"The Landlord's Troubles" and "Forced Bravery" a comedy by the Keystone Co., are also shown. Gene McCarthy sings the illustrated song.

AMUSEMENT PARK FOR DEERWOOD

Stock Company to be Formed to Buy and Operate the Park Lands of Robert Archibald

ARE NEAR SERPENT LAKE

Many Attractions Due in Deerwood—Other Social News of Town and Vicinity

Deerwood, Minn., May 21.—Citizens of Deerwood are working actively to finance an amusement park which is to be managed and conducted by a stock company. The lands embrace the beautiful wooded park section of Robert Archibald on the banks of Serpent lake. Mr. Archibald will retain a half interest and citizens will subscribe for stock to purchase the balance. Within a short time \$1,000 has been raised for this purpose and it is certain now that the project will be successfully launched. Such an amusement park will be an ideal place to entertain large crowds such as the shop picnic of June 21 will bring to Deerwood.

O. M. Thomason, of Seattle, Wash., a socialist lecturer, will speak on "What's the Matter With America?" and other questions of the hour at Hilyar's hall on May 22, Thursday evening.

Deputy Sheriff Claus Theorin of Brainerd, visited Deerwood and the range on Wednesday.

F. L. Pitt, the real estate man, was at Brainerd Wednesday. Mr. Pitt has completed his home near Serpent lake and it is one of the prettiest residences in Deerwood. He recently bought lot 4, block 7 from Enoch Mosher.

The Ladies' Aid society of the Norwegian Lutheran church will give a supper at the church on Saturday, May 24.

William Seafeld, superintendent of the Helmer Exploration company, is at Duluth.

E. A. Lamb is attending to business matters in Minneapolis.

Miss Marcella Keating, who has been visiting relatives in Seattle and Vancouver, returned home Wednesday.

Ray Sellers, of Minneapolis, has bought the Ed. Watts pool and billiard hall, and has remodeled the place and installed new fixtures, including a cigar case.

"Uncle Tom's Cabin" will show at Deerwood on May 29.

Sam Reddin, who has been at a Brainerd hospital undergoing treatment for dropsy, has been brought back to Deerwood and is still very weak.

Bert Dunn and Miss De Ette Rose, of Brainerd, were Sunday visitors. The Pickets, a negro minstrel troupe, will give a performance at Hilyar's opera house on May 23.

John Helmer, of Duluth, visited the range Wednesday.

E. C. Bane, of Brainerd, visited Deerwood Wednesday on his way home from a business trip to Duluth.

W. E. Milberry is building a residence on the north shore of Serpent lake.

Tom Watson, the engineer, is getting out a new map of Crosby, Crosby Beach and additions recently platted.

LOERCH ITEMS

Three cheers for Loerch! It has already got a good baseball team started. All the team needs is a little practice.

Mrs. Chas. Holms and daughter from McGill, Nevada, came to Loerch to spend the summer with her parents, Mr. and Mrs. Jos. Friedsam.

Most of the driflers went to Brainerd last Saturday night to get rigged up for the big ball game.

Mrs. Miller met her mother, Mrs. Wetheral, at Loerch last Sunday. The Loerch baseball team played their first game of ball with the Oak Lawn team and got beat right up to date, but Peg Leg says, never mind, we are just out for practice.

Carney Peterson took the train to Brainerd one day last week.

Andrew Peterson went to Brainerd last Tuesday evening.

Mrs. A. G. Trommald and family came out on the morning train last

MATTER OF GREAT IMPORTANCE

To Upwards of Four Hundred Members of This City

Esteemed Neighbor: You carry a certificate of insurance in the M. W. A.—is this certificate of any value to you—or are you making the payments on it "just for fun?"

At our next meeting, Friday evening, May 23rd, at 1. O. of O. F. hall the question will be discussed "shall we vote in favor of a new state organization or remain with the national organization for the present."

A convention of the members of the sixth congressional district will be held at Little Falls on June 2nd to settle the question. We must elect delegates to attend that convention and instruct those delegates as to our wishes in the matter.

Now, are the four hundred members of Brainerd Camp going to leave a question of such great importance as this to be settled by the regular attendance of fifteen members or are they going to have a voice in their own affairs.

Come Neighbor, turn out to our next meeting, discuss this question in full, then cast your vote to protect your own life insurance.

THE painter, the architect and the builder, after careful tests and examinations, are able to tell you that Bridgeport Standard Prepared Paint is the best for you to use in decorating your home.

It has the "body," the "covering" quality, the ability to stand up under all sorts of adverse weather conditions; it is the most economical because it requires less of it to do the work.

You can buy cheap paints; you can buy paints that sell at a less price per gallon, but you pay for them in extra labor and in the greater quantity used, and the necessity for more frequent painting.

Bridgeport Standard Prepared Paint is "made up to a standard, not down to a price."

Many Attractions Due in Deerwood—Other Social News of Town and Vicinity

Deerwood, Minn., May 21.—Citizens of Deerwood are working actively to finance an amusement park which is to be managed and conducted by a stock company. The lands embrace the beautiful wooded park section of Robert Archibald on the banks of Serpent lake. Mr. Archibald will retain a half interest and citizens will subscribe for stock to purchase the balance. Within a short time \$1,000 has been raised for this purpose and it is certain now that the project will be successfully launched. Such an amusement park will be an ideal place to entertain large crowds such as the shop picnic of June 21 will bring to Deerwood.

O. M. Thomason, of Seattle, Wash., a socialist lecturer, will speak on "What's the Matter With America?" and other questions of the hour at Hilyar's hall on May 22, Thursday evening.

Deputy Sheriff Claus Theorin of Brainerd, visited Deerwood and the range on Wednesday.

F. L. Pitt, the real estate man, was at Brainerd Wednesday. Mr. Pitt has completed his home near Serpent lake and it is one of the prettiest residences in Deerwood. He recently bought lot 4, block 7 from Enoch Mosher.

The Ladies' Aid society of the Norwegian Lutheran church will give a supper at the church on Saturday, May 24.

William Seafeld, superintendent of the Helmer Exploration company, is at Duluth.

E. A. Lamb is attending to business matters in Minneapolis.

Miss Marcella Keating, who has been visiting relatives in Seattle and Vancouver, returned home Wednesday.

Ray Sellers, of Minneapolis, has bought the Ed. Watts pool and billiard hall, and has remodeled the place and installed new fixtures, including a cigar case.

"Uncle Tom's Cabin" will show at Deerwood on May 29.

Sam Reddin, who has been at a Brainerd hospital undergoing treatment for dropsy, has been brought back to Deerwood and is still very weak.

Bert Dunn and Miss De Ette Rose, of Brainerd, were Sunday visitors.

The Pickets, a negro minstrel troupe, will give a performance at Hilyar's opera house on May 23.

John Helmer, of Duluth, visited the range Wednesday.

E. C. Bane, of Brainerd, visited Deerwood Wednesday on his way home from a business trip to Duluth.

W. E. Milberry is building a residence on the north shore of Serpent lake.

Tom Watson, the engineer, is getting out a new map of Crosby, Crosby Beach and additions recently platted.

LOERCH ITEMS

Three cheers for Loerch! It has already got a good baseball team started. All the team needs is a little practice.

Mrs. Chas. Holms and daughter from McGill, Nevada, came to Loerch to spend the summer with her parents, Mr. and Mrs. Jos. Friedsam.

Most of the drifters went to Brainerd last Saturday night to get rigged up for the big ball game.

Mrs. Miller met her mother, Mrs. Wetheral, at Loerch last Sunday.

The Loerch baseball team played their first game of ball with the Oak Lawn team and got beat right up to date, but Peg Leg says, never mind, we are just out for practice.

Carney Peterson took the train to Brainerd one day last week.

Andrew Peterson went to Brainerd last Tuesday evening.

Mrs. A. G. Trommald and family came out on the morning train last

MATTER OF GREAT IMPORTANCE

To Upwards of Four Hundred Members of This City

Esteemed Neighbor: You carry a certificate of insurance in the M. W. A.—is this certificate of any value to you—or are you making the payments on it "just for fun?"

At our next meeting, Friday evening, May 23rd, at I. O. of O. F. hall the question will be discussed "shall we vote in favor of a new state organization or remain with the national organization for the present."

A convention of the members of the sixth congressional district will be held at Little Falls on June 2nd to settle the question. We must elect delegates to attend that convention and instruct those delegates as to our wishes in the matter.

Now, are the four hundred members of Brainerd Camp going to leave a question of such great importance as this to be settled by the regular attendance of fifteen members or are they going to have a voice in their own affairs.

Come Neighbor, turn out to our next meeting, discuss this question in full, then cast your vote to protect your own life insurance.

Per order of Com.,

They all want They Know

THE painter, the architect and the builder, after careful tests and examinations, are able to tell you that Bridgeport Standard Prepared Paint is the best for you to use in decorating your home.

It has the "body," the "covering" quality, the ability to stand up under all sorts of adverse weather conditions; it is the most economical because it requires less of it to do the work.

You can buy cheap paint; you can buy paints that sell at a less price per gallon, but you pay for them in extra labor and in the greater quantity used, and the necessity for more frequent painting.

Bridgeport Standard Prepared Paint is "made up to a standard, not down to a price."

Cause of Eczema Now Explained

Eczema, Psoriasis and other skin troubles are caused by myriads of germs at work in the skin. Salves have been tried but have been proven worthless, for they only clog the pores and fail utterly to remove the real cause of the disease.

These germs can be destroyed only by a wash, and unless this is promptly done, they rapidly multiply, gnawing their way deep into the sensitive tissue. This is what causes that awful itch, and what seemed a mere rash may grow worse and develop into a loathsome and torturing skin disease with its years of misery.

Don't take any chances! Destroy the germs at the beginning of the trouble with that soothing and cleansing wash, the D.D.D. Prescription for Eczema.

H. P. Dunn, druggist.—Adv.

We have had experience with many remedies for skin trouble but have never seen such remarkable cures as those from D.D.D. Prescription.

We know many people have given up trying to find a cure for Eczema. They have tried most everything and seem to think there is nothing that will help them. Of course, we will not absolutely promise you that D.D.D. will cure you, but we are so sure of what D.D.D. will do for you, that we will give you the first \$1.00 bottle on our personal guarantee that if you do not find it does the work it will not cost you a cent.

Drop in anyway and investigate the merits of this great remedy.

LOST EXPLORERS.

Pathos and Tragedy Fill the Pages of Their Diaries.

SOME FAMOUS LAST RECORDS.

The Journals of Captain Scott, De Long, Livingstone, Franklin and Others Are Mute Testimonies of Their Heroic Sacrifices For Science.

A peculiar and pathetic interest attaches to the last records of lost explorers, dying alone and unaided amid icy wildernesses or in the steaming depths of tropical jungles.

The diary kept by the gallant Captain Scott teems with tragic touches, but it also has its beautiful and its heroic side. No more splendid instance of magnificent self sacrifice has been recorded than the action of the disabled Captain Oates in seeking voluntary death in the blizzard so as not to be a burden on his surviving companions.

The world is richer in the possession of facts such as these, which is why the last diaries of men dying in similar circumstances have always been ardently sought and carefully treasured.

It was, for example, in order to try to recover the papers belonging to the lost arctic explorer Mylius Erichsen that Captain Mikkelsen recently spent two awful years among the icy solitudes of northeast Greenland. He failed in his quest, and he and his solitary companion came near to losing their own lives.

These journals of poor Erichsen, if they are ever found, will doubtless tell a similarly stirring story to that left behind by Scott. Until then there is only one record that closely parallels it, and that is the diary left by the American, De Long, who, with other survivors from the arctic exploring ship Jeannette, perished amid the frozen wastes of northeastern Siberia in the winter of 1881.

De Long's diary, which was recovered and has been published, might almost be a duplicate in parts of that kept by poor Scott.

Only in De Long's case the tragedy was even more appalling than in Scott's, for his party consisted of no fewer than thirteen men, and these all died from starvation and exposure. The last entry reads as follows: "One hundred and fortieth day—Boyd and Gortz died during the night. Mr. Collins dying."

The gallant De Long was then left with but one companion, Dr. Ambler, the medical officer to the expedition, for the deaths of the other men had been previously recorded, and doubtless the two last of the survivors died that day or the next. At all events, the journal ended abruptly at this point.

By far the most dreadful tragedy of arctic exploration was the loss of the Franklin expedition, when the ill fated officers and men of the two exploring ships, Erebus and Terror, 130 in all, perished. Curiously enough, though many relics of the ill fated commander Sir John Franklin were recovered by search parties and are now preserved in the museum attached to the Greenwich hospital, none of his diaries or personal papers were ever found.

One single written record of the lost expedition remains to us. It is in the form of a sheet torn from a small pocket diary, and these are the words it contains: "April 25, 1848—Terror and Erebus were abandoned. Sir John Franklin died on June 11, 1847, and the total loss by deaths up to this date nine officers and fifteen men."

This precious scrap of paper was discovered in a cairn on King William's Island in the year 1858. There was no signature, but the handwriting was afterward identified as that of Captain Fitzjames, one of Sir John's officers.

In the tragic history of exploration no briefer record than this exists of a disaster so appalling in its magnitude, although Burke and Willis, who first crossed Australia, left behind them only a few tattered leaves from an old pocketbook to tell the story of how they and their companions had lain down in the desert to die.

Of all the many valuable and interesting documents left behind by lost explorers, however, none can vie in importance with the last journals of David Livingstone, who died, worn out by hunger and privation, at Hala, in central Africa, May 1, 1873. These were brought down to the coast, together with his body, by his faithful black "boys" and were published in December, 1874.

They told of vast and far-reaching discoveries and explorations undertaken under almost inconceivable conditions of hardship and privation. In fact, Livingstone literally laid down his life for his country since to his pioneer enterprise is largely due the fact that so great a part of Africa is today colored red upon the map.—London Answers.

Terrors of the Dutch Language.

The names of the streets and the names over the shop doors in Holland are eminently calculated to tie your eye up in a knot. To come suddenly upon a dog show and find it called a rashondentoonstellling and upon an announcement which reads "Rijnsche wettmatenverkoop" is calculated to stagger one, but apart from a language which is trying alike to the eye and the tongue Holland is a delightful place, and the Dutch are a splendid people.—Sims' "Dagboek Abroad."

Envious.

"There's a sad case," said Mrs. Jones as she laid the paper on her knees and wiped her spectacles—"a bride struck dumb after leaving the altar, and by last accounts she hadn't recovered her speech."

"It's the way of the world, my dear," said old Mr. Jones with a sigh. "It's the way of the world. Some men have all the luck."—London Telegraph.

Kept a Good Table.

Brown—Keeps a good table, does she? Robinson—Excellent. Solid oak. Has had it for years.

OSLER TELLS HOW TO LIVE.

Life is a Habit, He Says In Address at Yale University.

Sir William Osler of London outlined a new method of life while addressing the Yale university students recently. He urged them to live for the present.

"My method is the freshest, oldest, simplest and usefulest handle in which to put your tool of life," he said. "Forget the past, forget the future. Life is a habit as hard or as easy to acquire as any other in life. I'm no genius—my friends have found out that—but take no thought for the future, touch a button that will shut off the past and another that will shut off the future, and you will have a vaccine that will insure you against all morbid thought. When the load of tomorrow is added to the load of yesterday many men falter on the way."

"The first two hours of a day determine that day. If you have been romping with the younger Aphrodite the night before you will be as blear-eyed as a fish when you get up and the day will be lost. Quit tobacco and liquor. Bright eyes are the thing, and bright eyes never came from too free indulgence."

Where the Benefit Was.

Widow's Daughter—Mamma, why did you tell Mrs. Lamode that I am only eighteen when I am really twenty-four?

Widow—Because eighteen is six years under twenty-four, my dear.

Daughter—Yes, I know, but surely I don't need the benefit of those six years at my age, do I?

Widow—Not at all, my child, but I do.

There are proper dignity and proportion to be observed in the performance of every act of life.—Marcus Aurelius.

Too Difficult a Job.

An Irishman who was too old for active work was offered the position of crossing tender at a small railroad station. He looked dubious as the duties of the office were explained to him and the meaning of the various flags was clearly stated.

"In case of danger with a train coming of course you wave the red flag," said his friend, proceeding with his explanation. A hard old hand grasped his arm.

"Man, dear, it'll never do," said Patrick, shaking his head solemnly. "I could never trust myself to remember to wave a red flag when there was a green wan handy."—Current Literature.

LOOK TO TODAY.

Know thou, my heart, if thou art not happy today thou shalt never be happy. Today it is given thee to be patient, unselfish, purposeful; to be strong, eager and to work mightily. If thou dost these things, and doest them with a grateful heart, thou shalt be as happy as it is given man to be on earth.—Haverlag.

LOST EXPLORERS.

Pathos and Tragedy Fill the Pages of Their Diaries.

SOME FAMOUS LAST RECORDS.

The Journals of Captain Scott, De Long, Livingstone, Franklin and Others Are Mute Testimonials of Their Heroic Sacrifices For Science.

A peculiar and pathetic interest attaches to the last records of lost explorers, dying alone and unaided amid icy wildernesses or in the steaming depths of tropical jungles.

The diary kept by the gallant Captain Scott teems with tragic touches, but it also has its beautiful and its heroic side. No more splendid instance of magnificent self sacrifice has been recorded than the action of the disabled Captain Oates in seeking voluntary death in the blizzard so as not to be a burden on his surviving companions.

The world is richer in the possession of facts such as these, which is why the last diaries of men dying in similar circumstances have always been ardently sought and carefully treasured. It was, for example, in order to try to recover the papers belonging to the lost arctic explorer Mylius Erichsen that Captain Mikkelson recently spent two awful years on the icy solitudes of northeast Greenland. He failed in his quest, and he and his solitary companion came near to losing their own lives.

These journals of poor Erichsen, if they are ever found, will doubtless tell a similarly stirring story to that left behind by Scott. Until then there is only one record that closely parallels it, and that is the diary left by the American, De Long, who, with other survivors from the arctic exploring ship Jeannette, perished amid the frozen wastes of northeastern Siberia in the winter of 1881.

De Long's diary, which was recovered and has been published, might almost be a duplicate in parts of that kept by poor Scott.

Only in De Long's case the tragedy was even more appalling than in Scott's, for his party consisted of no fewer than thirteen men, and these all died from starvation and exposure. The last entry reads as follows: "One hundred and fortieth day—Boyd and Gortz died during the night. Mr. Collins dying."

The gallant De Long was then left with but one companion, Dr. Ambler, the medical officer to the expedition, for the deaths of the other men had been previously recorded, and doubtless the two last of the survivors died that day or the next. At all events, the journal ended abruptly at this point.

By far the most dreadful tragedy of arctic exploration was the loss of the Franklin expedition, when the ill-fated officers and men of the two exploring ships, Erebus and Terror, 130 in all, perished. Curiously enough, though many relics of the ill-fated commander Sir John Franklin were recovered by search parties and are now preserved in the museum attached to the Greenwich hospital, none of his diaries or personal papers were ever found.

One single written record of the lost expedition remains to us. It is in the form of a sheet torn from a small pocket diary, and these are the words it contains: "April 25, 1848—Terror and Erebus were abandoned. Sir John Franklin died on June 11, 1847, and the total loss by deaths up to this date nine officers and fifteen men."

This precious scrap of paper was discovered in a cairn on King William's Island in the year 1858. There was no signature, but the handwriting was afterward identified as that of Captain Fitzjames, one of Sir John's officers.

In the tragic history of exploration no briefer record than this exists of a disaster so appalling in its magnitude, although Burke and Willis, who first crossed Australia, left behind them only a few tattered leaves from an old pocketbook to tell the story of how they and their companions had lain down in the desert to die.

Of all the many valuable and interesting documents left behind by lost explorers, however, none can vie in importance with the last journals of David Livingstone, who died, worn out by hunger and privation, at Ilala, in central Africa, May 1, 1873. These were brought down to the coast, together with his body, by his faithful black "boys" and were published in December, 1874.

They told of vast and far-reaching discoveries and explorations undertaken under almost inconceivable conditions of hardship and privation. In fact, Livingstone literally laid down his life for his country since to his pioneer enterprise is largely due the fact that so great a part of Africa is today colored red upon the map.—London Answers.

Terrors of the Dutch Language.

The names of the streets and the names over the shop doors in Holland are eminently calculated to the your eye up in a knot. To come suddenly upon a dog show and find it called a rashondentoonstelling and upon an announcement which reads "Rij inspoorewagenaatschappij" and dan voortsegeven vertegenwoordiger" is calculated to stagger one, but apart from a language which is trying alike to the eye and the tongue Holland is a delightful place, and the Dutch are a splendid people.—Sims' "Dagboek Abroad."

Envious.

"There's a sad case," said Mrs. Jones as she laid the paper on her knees and wiped her spectacles—"a bride struck dumb after leaving the altar, and by last accounts she hadn't recovered her speech."

"It's the way of the world, my dear," said old Mr. Jones with a sigh. "It's the way of the world. Some men have all the luck."—London Telegraph.

OSLER TELLS HOW TO LIVE.

Life is a Habit, He Says In Address at Yale University.

Sir William Osler of London outlined a new method of life while addressing the Yale university students recently. He urged them to live for the present.

"My method is the freshest, oldest, simplest and usefulest handle in which to fit your tool of life," he said. "Forget the past, forget the future. Life is a habit as hard as any easy to acquire as any other in life. I'm no genius—my friends have found out that—but take no thought for the future, touch a button that will shut off the past and another that will shut off the future, and you will have a vaccine that will insure you against all morbid thought. When the load of tomorrow is added to the load of yesterday many men falter on the way."

"The first two hours of a day determine that day. If you have been romping with the younger Aphrodite the night before you will be as bleary eyed as a fish when you get up and the day will be lost. Quit tobacco and liquor. Bright eyes are the thing, and bright eyes never came from too free indulgence."

Where the Benefit Was.

Widow's Daughter—Mamma, why did you tell Mrs. Lamode that I am only eighteen when I am really twenty-four?

Widow—Because eighteen is six years under twenty-four, my dear.

Daughter—Yes, I know, but surely I don't need the benefit of those six years at my age do I?

Widow—Not at all, my child, but I do.

There are proper dignity and proportion to be observed in the performance of every act of life.—Marcus Aurelius.

Too Difficult a Job.
An Irishman who was too old for active work was offered the position of crossing tender at a small railroad station. He looked dubious as the duties of the office were explained to him and the meaning of the various flags was clearly stated.

"In case of danger with a train coming of course you wave the red flag," said his friend, proceeding with his explanation. A hard old hand grasped his arm.

"Man, dear, it'll never do," said Patrick, shaking his head solemnly. "I could never trust myself to remember to wave a red flag when there was a green wan handy."—Current Literature.

"No woman knows how to drive a nail."
"And what of that? Every woman knows how to drive a man any way she wants him to go."—Washington Herald.

Strength of the Oyster.
If the average person were asked what was the strongest living thing it is probable that he would name the lion or some such huge denizen of the forest and would not even think of the unassertive bivalve. But so great is the power possessed by the oyster that to open it a force equal to 1,319.5 times the weight of its shell-less body is required.
